Credicorp Flex evidence brief: Premises Costs

By CM Beyer Commercial Research Desk - Commercial research editor - Updated 11 July 2026

A sourced evidence brief for directors weighing Credicorp Flex against cash reserves, supplier terms and the wider Credicorp product family.

Premises costs can combine rent, rates, repairs and safety work in the same trading month. The decision is easier when the company writes down the invoice, the date and the repayment source.

Credicorp Flex belongs in the comparison when premises costs creates repeated short gaps that should be drawn and repaid in cycles. A clean use case has a specific cost, a specific business purpose and a specific repayment source.

Check rates relief, valuation and safety duties before treating the whole pressure as borrowing. The sources below show the rule, product page or public register behind the point.

For Credicorp Flex, the discipline is to draw for short needs and repay when receipts land, not to treat the limit as extra revenue.
