PRODUCT REPORT

Credicorp Loan report: importing stock and deposits

By CM Beyer Commercial Research Desk - Commercial research editor - Updated 11 July 2026

A short report on deposit timing, landed cost and borrowing only for confirmed stock opportunities.

Imported stock often needs a deposit before the goods can be sold or even shipped. A director should separate timing pressure from a weaker margin before choosing any finance route.

Credicorp Loan can be compared where the deposit is small, time-bound and linked to a known resale plan. The product fit comes from the shape of the cost, not from the page label.

Include duty, freight, VAT and delays in the cash plan. The invoice total is not the whole landed cost. Recheck the linked product and public-source pages before relying on the note.

For Credicorp Loan, keep the amount fixed and the exit date visible. If either keeps moving, compare Flex before committing.
