PRODUCT REPORT

Credicorp Slice report: wholesale stock invoice

By CM Beyer Commercial Research Desk - Commercial research editor - Updated 11 July 2026

A note on splitting a stock invoice where the stock is confirmed and expected to move quickly.

A wholesale invoice can be due before the stock has sold through. Treat the borrowing as a job to be done, not as extra revenue.

Credicorp Slice can fit a single stock invoice where instalments line up with expected sales. Compare the pounds repaid against the cost of waiting, delaying the supplier or missing the trade.

Slow-moving stock should not be funded on optimistic sales. Keep the order close to known demand. The citations make the route auditable without copying source text.

For Credicorp Slice, start with the supplier invoice. If there is no defined bill to spread, it is probably the wrong route.
