Credicorp product comparison: Confirmation Statements checklist

By CM Beyer Commercial Research Desk - Commercial research editor - Updated 11 July 2026

A sourced checklist for comparing Credicorp Loan, Credicorp Flex and Credicorp Slice when confirmation statements affects cash flow.

A confirmation statement is a dated Companies House obligation, so cash planning should not leave it until the last week. A director should separate timing pressure from a weaker margin before choosing any finance route.

Use the product comparison route when the company is still choosing between a fixed loan, a revolving facility and splitting one invoice. The product fit comes from the shape of the cost, not from the page label.

If the filing is overdue, fix the record first. Borrowing should not hide a basic register problem. Recheck the linked product and public-source pages before relying on the note.

For the product comparison route, decide what shape the pressure has first: one dated gap, repeated draw-and-repay pressure, or one invoice to split.
