Credicorp product comparison: Director Records director note

By CM Beyer Commercial Research Desk - Commercial research editor - Updated 11 July 2026

A sourced director note for comparing Credicorp Loan, Credicorp Flex and Credicorp Slice when director records affects cash flow.

Director records are not paperwork for later; lenders and suppliers read them as part of the company's operating discipline. Treat the borrowing as a job to be done, not as extra revenue.

Use the product comparison route when the company is still choosing between a fixed loan, a revolving facility and splitting one invoice. Compare the pounds repaid against the cost of waiting, delaying the supplier or missing the trade.

Keep appointments, names, service addresses and filing records consistent before treating finance as the fix. The citations make the route auditable without copying source text.

For the product comparison route, decide what shape the pressure has first: one dated gap, repeated draw-and-repay pressure, or one invoice to split.
