

# Credicorp product comparison: Software Subscriptions risk note

By CM Beyer Commercial Research Desk - Commercial research editor - Updated 11 July 2026

A sourced risk note for comparing Credicorp Loan, Credicorp Flex and Credicorp Slice when software subscriptions affects cash flow.

Software subscriptions and renewals can arrive before the month they help to earn. Approval is never the point by itself; the useful test is whether the company can repay without creating the next gap.

Use the product comparison route when the company is still choosing between a fixed loan, a revolving facility and splitting one invoice. If the same pressure repeats, pause and compare terms, reserves or a facility before using a one-off fix.

Check data protection, access control and supplier terms as well as the renewal price. The external links keep the page anchored to public material rather than sales copy.

For the product comparison route, decide what shape the pressure has first: one dated gap, repeated draw-and-repay pressure, or one invoice to split.
